

BIRCH RIDGE CONSERVATION PROJECT CONDITIONAL PLEDGE FORM

The Society for the Protection of New Hampshire Forests is working with a group of concerned citizens and the town of New Durham to explore the possibility of permanently conserving the 2000-acre property currently proposed for the 220-unit Red Oak Ridge Subdivision in New Durham, New Hampshire.

The proposed plan for funding the acquisition of the property from the developers involves support from private donors, from the Town of New Durham through a bond, and from state and federal grant(s). A strong showing from all of these funding sources will be required for the project to move forward.

In order to ascertain the level of donor support for the project, the Society is now collecting legally-binding pledges. The pledges will be due and payable once sufficient funding is raised to ensure the successful completion of the project (estimated to be early 2009). No cash gifts or payments on pledges will be accepted until the determination has been made that the project will proceed. In the unlikely event that the project is not completed after the decision to proceed, all gifts and pledge payments will be returned to the donors. The Society is a 501(c)(3) charitable organization and contributions are tax deductible to the extent of the law.

For more information, please contact Susanne Kibler-Hacker, Vice President for Development at 603-224-9945 x 314 or skh@forestsociety.org.

In consideration of the need for private support, I/we pledge \$_____ for the Birch Ridge Conservation Project. I understand that this pledge is legally binding and will be due and payable upon a commitment to proceed with the project. This pledge is null and void if I do not receive notification that the project will proceed by December 31, 2009.
